

## **Protection of privacy from encroachment and intervention by the government**

The government is encroaching more and more brazenly on respectable citizens' privacy of. It is necessary to put a stop to this. There are some simple measures to keep away state snoopers at least in some areas:

1. Pay in cash whenever possible as long as this still exists. Let yourself also be paid in cash and avoid bank transfers as far as possible.
1. Manage your money in such a way that access by unauthorized persons is made as difficult as possible. You can learn more about this in my individual consultations (see [www.woeckelcoaching.com](http://www.woeckelcoaching.com)).
2. Protect your computer from state snoopers. You can learn exactly how that works in my consultations (see [www.coach4computing.com](http://www.coach4computing.com)).
